

Player Movement Guidelines 2018:

With regards the movement of players between teams, the Strong Quality Growth Committee reviewed guidelines issued by Julie Tudhope in 2009 and agreed on the following:

A team may amend its "List of Players", with regards to one individual player, **twice in any one season**, once in the first half of the season and once in the second half.

In effect, a player registered with a club who has more than one team at the same age group, may move from one team to the other and back to their original team, once in the period February - June and once in the period August – November.

In addition clubs with teams operating in the Youth National Performance Leagues must conform to additional restrictions as outlined in Youth Regional League Competitions Rule 20c.

With regards goalkeepers, the guidelines will state that clubs may request additional movements to those permitted above. All requests should be sent to the regional league administrator who will ask the regional management committee for permission to grant such requests.

Issued February 2017 – Strong Quality Growth Committee
